

BAIC BJ80 Off Road Vehicle SUV Gasoline 4 Seater 4x4Z Automatic Transmission

Our Product Introduction

for more products please visit us on vehicle-automobile.com

Basic Information

- Place of Origin: China
- Brand Name: Fushunt
- Model Number: BAIC BJ80 off-road vehicle SUV gasoline 4-seater 4x4Z automatic transmission
- Minimum Order Quantity: 1 vehicle
- Price: \$50,000-\$60,000Dollar
- Packaging Details: Complete vehicle
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 1000 vehicle

Product Specification

- Body Style: Sedan
- Color: White
- Doors: 4
- Drive Type: Front Wheel Drive
- Entertainment Features: AM/FM Radio, CD Player, Bluetooth
- Entertainment System: Touchscreen Display, Bluetooth, Apple CarPlay
- Fuel: Gasoline
- Fule: Gasoline
- Interior Color: Black
- Safety Features: Airbags, ABS, Lane Departure Warning
- Size: Medium
- Steering: Power-assisted
- Tires: All-season
- Transmission: Automatic

Product Description

BAIC BJ80 Off-Road Vehicle SUV Gasoline 4-Seater 4x4Z Automatic Transmission

Sure! Here's a segmented description of an off-road vehicle in clear hierarchy:

Vehicle Type and Purpose: An off-road vehicle is a specialized vehicle designed for driving on rough and challenging terrains, such as dirt roads, rocky trails, and uneven surfaces. Its primary purpose is to navigate off-road environments where conventional vehicles may struggle or be unsuitable. Off-road vehicles are commonly used for outdoor adventures, off-roading sports, and exploration in remote areas.

Body Design and Ground Clearance: Off-road vehicles feature a robust and rugged body design to withstand the demands of off-road driving. They often have a high ground clearance, allowing them to clear obstacles and traverse uneven terrain without getting stuck or damaging the undercarriage. The body may be reinforced with skid plates and protective panels to safeguard vital components from impacts and debris.

Four-Wheel Drive (4WD) or All-Wheel Drive (AWD): Off-road vehicles are typically equipped with either a four-wheel drive (4WD) or all-wheel drive (AWD) system. This drivetrain configuration provides power to all four wheels simultaneously, maximizing traction and enhancing the vehicle's capability to tackle challenging off-road conditions. The 4WD or AWD system allows the vehicle to distribute torque to individual wheels as needed, improving stability and maneuverability.

Suspension System and Tires: Off-road vehicles are equipped with specialized suspension systems designed to absorb shocks and maintain stability on rough terrains. They feature long-travel suspension with heavy-duty components to handle bumps, dips, and uneven surfaces effectively. Off-road tires are designed with aggressive tread patterns and durable rubber compounds, providing superior traction on loose soil, mud, gravel, and other challenging surfaces.

Off-Road Features and Accessories: Off-road vehicles may come with a range of features and accessories to enhance their off-road capabilities. These can include locking differentials for improved traction, electronic stability control systems for maintaining control on slippery surfaces, and advanced off-road driving modes that optimize performance for specific conditions. Additionally, off-road vehicles may have winches, tow hooks, skid plates, and auxiliary lighting to assist in recovery and provide additional utility during off-road adventures.

Through the above segmented description, we can clearly understand the type and purpose of an off-road vehicle, its body

Our Product Introduction

design and ground clearance, drivetrain configuration, suspension system and tires, as well as the off-road features and accessories that enhance its performance in challenging terrains.

Vehicle technical parameters		
1	Car body dimensions (length × width × height) mm:	4765×1955×1985
2	engine manufacturer	Beijing Automotive Powertrain Co., Ltd.
3	Wheelbase mm:	2800
4	Vehicle fully loaded total mass kg:	2815
5	Vehicle curb weight kg:	2315
6	suspension system	Front suspension double wishbone independent suspension, five-link non-independent suspension
7	Approach / departure angle	34/27
8	Front overhang/rear overhang mm	825/1140 (mm)
9	Axle load	1315/1500
10	Number of axes	2
11	Fuel consumption	12
12	Number of spring leaves	---
13	Number of tires	4
14	Front wheelbase/rear wheelbase	1620/1620
15	Steering Type	steering wheel
16	Minimum ground clearance mm:	206
17	Minimum turning radius m:	5.7
18	Fuel type:	gasoline
19	Fuel tank volume (L):	85
20	engine model	6G30T
21	Way of working:	V inline, 6 cylinders, direct injection, 16 valves
22	Exhaust volume ml:	2999
23	Rated power kw(hp)/rpm:	206
24	Maximum torque Nm/rpm:	420/3500-4500
25	Emission Standards:	National VI
26	Drive mode	Front four-wheel drive
26	transmission:	8-speed automatic manual
28	Top speed km/h:	180
29	Tire specifications and models	265/65 R17
30	Braking System	front disk rear disk
31	Environmental protection standards	GB17691-2005 (National VI)
32	Rated passenger capacity (including driver)	4 people
Main vehicle configuration		
33	All-metal non-bearing body, white, silver, gray, and black	
34	ABS/EBD/EBC, EBA/EBS/BA, ASR/TCS/TRC, ESC/ESP/DSC	
35	Electric rearview mirror	
36	LED headlight	
37	Electric sunroof	
38	automatic air conditioner	
39	central locking	
40	Imitation leather seats	
41	All-car aluminum alloy wheels, full-size spare tire	
42	Electric doors and windows	
43	Driver's seat (main and auxiliary) airbags, front side airbags,	
44	remote key	
45	Heating and cooling system	
46	Tire pressure display	
47	Built-in driving recorder	
48	Fatigue driving tips	
49	Cab multifunctional storage box	
50	Full car seat belt	
51	8-inch central touch LCD display	
52	Visual reversing	
53	cruise control	
54	7 speaker speaker
